SUCCESSFUL 2ND LUXEMBOURG-POLAND BUSINESS CONFERENCE

Exactly a year ago, Luxembourg and Poland made official their intention to work together on space activities development through the signing of an official memorandum. Last week, this

ambition was further strengthened by the celebration of the 2nd Luxembourg-Poland Business Conference, an event focused on the current state of the space industry, which marked an important date for the future of joint space projects between the two countries.

"Poland was the second country after Portugal with which Luxembourg has started co-operating in this sector, and we wish for this relationship to further develop", said Etienne Schneider at the Conference, highlighting that European firms, in general, should invest more into new technologies.

The space industry is growing exponentially in size and popularity, and Poland is among the countries with the most activity in this sector: around 300 companies and startups are currently proliferating on the Polish territory.

The event featured a speech by H. E. Mr. Conrad Bruch, Ambassador of the Grand Duchy of Luxembourg to Poland, a speech by Mr. Etienne Schneider, Vicepresident and Minister of the Economy of Luxembourg, three panels held by key industry exponents from both Poland and Luxembourg. LPCC President Artur Sosna participated as Master of Ceremonies.

During his speech, Minister Schneider touched on the important role of academic institutions in preparing the workforce of the future. Many universities are looking forward to the future and including interdisciplinary programs to their offers, such as Warsaw University of Technology, but also Luxembourg University, which launched its Interdisciplinary Space Master this fall.

The conference was organized jointly by the Luxembourg-Poland Chamber of Commerce, the Embassy of The Grand Duchy of Luxembourg in Poland, the Embassy of the Republic of Poland in Luxembourg, and the Polish-Luxembourg Chamber of Commerce.

BASE CAMP JOINS LPCC'S CORPORATE NETWORK

BaseCamp Student is a unique concept that focuses on creating amazing student communities through intelligent modern design and high level operations led by a mix of hospitality professionals and working students. The core of our philosophy is creating communities of students. This results in stimulating relationships, which flourish within the walls of each of our properties. It all adds to a perpetually growing BaseCamp global community, which is one of our key goals. We don't build properties, we build social infrastructures aiding students, universities, and cities/towns by creating student communities in prime locations with very long-term ownership. The company is located in Luxembourg and in Poland.

MINDFOREST - THE GOLDEN SPONSOR OF ENTREPRENEURIAL WOMEN PROJECT AWARDS 2019

The LPCC's Entrepreneurial Women Project 2019 has successfully concluded in November. In this edition we had the pleasure to cooperate with [MindForest](#), who provided **the Gold Prize** worth €3,000 (€1,500 in cash and €1,500 in training).

This first prize was awarded to Vaiva Simonaviciute (Mava Univers) for eco educational toys and instruments (business up-and-running for 2 weeks).

Let us to introduce MindForest shortly.

MindForest – Managing Change

With nearly 20 years of experience, MindForest is a consulting firm specialised in change management.

The combination of our expertise in change management and organisation with our multi-disciplinary team makes us the right partner to accompany you no matter what the challenge:

- cultural change
- strategy activation
- innovation
- employee engagement
- process optimisation

MindForest places the human at the centre of its consulting and advisory activities, not only by putting special emphasis on the social and cultural aspects, but also by highlighting relevant and essential factors such as commitment, values, communication, emotions, skills and creativity.

We work DIFFERENTLY

As we focus on the human factor, we will be able to change the way you work and motivate your employees to move beyond their comfort zone.

Before the start of every project, we organise a project definition session: this interactive workshop provides a framework for an in-depth discussion between yourself and our consultants to define the main issues you wish the project to address.

Visual Communication

We will help you create messages, which can be easily understood and assimilated by your employees. Whether this takes the form of an infographic, animation, method card or a video, we can provide you with the right personalized approach throughout your projects.

Let us guide and support you in the implementation of the solutions you need to meet your challenges: www.mindforest.com.
